

Rescued by an Alien (Stolen by an Alien, #2) By Amanda Milo **Rescued by an alienbird** I like the time it takes here to work through the issues (what she can) I like that everyone knows she needs therapy and they do the best that can for her (don't want to spoil). **Rescued by an aliengender** WHY AMANDA MILO WHY? I could easily have rated this book -20 stars for the shit this author pulled but I am giving it 2 because I did think that there were good parts to this story. **Rescued by an alienjay** Heroine is gang raped by aliens and still vomiting semen days later - who the fuck thinks shit belongs in a romance novel?????!!!!!! ANYONE? ANYONE? And then she gets busy with some Godzilla type motherfucker who has a TAIL and SCALES and FLOPPY EARS and SCALES, But the other book is a sweeter on the run type alien romance so you should read that too, **Rescued by an aliengearholsters** I loved how witty and funny were the dialogues between her characters: **Rescued by an alienboy** book Z was connected to her from childhood eventhough they were galaxies apart, **Rescued by an aliengear** He rescued her and from there starts callie's journey to recovery and rediscovery, **Rescued by an alienby** Even though I read this book as standalone i think it was very connected to book 1, **Rescued by an alienboy cast** For example the alien appearances and their specific characteristics. **Rescued by an alienhead** I loved Z.

## Rescued by an aliengender

This is an alternate cover edition for B073J2PDC2 ZADEON When my human mate was auctioned she was sold to a savage lot of aliens. **Rescued by an aliengy** She's afraid I will abandon her; but I've been waiting all my life for my mate, **Rescued by an aliengearholsters** \*\*\*\*Content warning: For readers 18 years and older Contains explicit sexual situations dark themes sensitive subjects and violence, **Rescued by an aliengear** Rescued by an Alien (Stolen by an Alien #2)

Huh I loved the first book, **Rescued by an aliengearholsters** Was super excited for this book even knowing that Callie had been through hell, **Rescued by an alienbird** I had trouble figuring out what was going on when and with whom: **Rescued by an alienhub games** It sort of straightened itself out at that point however the way this author writes conversations makes it hard for me to figure out who is talking at times. **Rescued by an alienjay** That makes for a very difficult read because I feel I have to go back and figure it out and it disrupts the flow. **Rescued by an alienhumane** Sure he was a pretty gross sounding alien but his actions were perfect. **Rescued by an alienhead** So I do not fault her for being so fucked up the ENTIRE book, **Rescued by an aliengearholsters** But honestly I like my romance novels to be a bit easier to read, **Rescued by an alienbees** The heroine wallowing in her misery for almost the whole story is miserable to me. **Rescued by an alienhumane** Sure I might be an insensitive bitch for wanting her to get over it but I am not reading an alien romance story for such angst and sorrow. **Rescued by an alienhumane** The constant reminders of the atrocities are just not enjoyable, **Rescued by an aliengearholsters** Her selfishness and being so horrible to Z in her head was too much for me: **Rescued by an alienhub games** I get why she could not get past it quickly or easily but it is not my idea of a great read. **Rescued by an aliengtr** I saw it coming from the very first hint and it caused anxiety the entire book. **Rescued by an alienjay** Zadeon handled it as perfectly as possible but it was too much

for me: **Rescued by an aliengirl book** It sucked the life out of any building romance and future for me, **Rescued by an aliengear** I enjoyed the epilogue but the author still wrote it in a way that it took work figuring out who was saying what about whom: **Rescued by an alienhumane** I am sure it makes sense to her as she invented the story but she needs a good beta reader: **Rescued by an aliengtr** But the epilogue left me feeling much better than the entire book did. **Rescued by an alienhead** The second epilogue was very intriguing and may make me want to read that book. **Rescued by an alienhead** safety gang Callie was horribly raped and abused by her captors. **Rescued by an alienbees** It had dark topics as the heroine didn't escape being abducted by slavers as a sexual object without horrors: **Rescued by an aliengender** I like that not all reaction to her trauma are supportive, **Rescued by an alienboy cast** However you have to have read the first book to really understand what is happening in this book in terms of culture events our hero, **Rescued by an aliengear** I felt so much for callie and what she went through and how much she suffered. **Rescued by an alienjay** I was mixed on the first book Stolen by an Alien and this one had me leaning one way and then the other too: **Rescued by an alienhumane** He was all spines and scales and horns and tail and breathing fire: **Rescued by an aliengearholsters** How Milo managed to make that seem like a cuddle-bug I don't know but she did: **Rescued by an alienhub games** I especially enjoyed the surreptitious - and not so surreptitious - scenting: **Rescued by an aliengear** His personality and backstory emerge more throughout the book and I liked the details: **Rescued by an alienhub** Callie and her situation: Difficult to read at times yet I felt some of the struggle seemed legitimate, **Rescued by an alienguard** But once she finally feels better I felt her backstory was short-changed. **Rescued by an alienhusband** Plus her snark and attitude sounded suspiciously like Angie from book one, **Rescued by an alienbird** In future books I hope that there are different personalities that emerge and I have high hopes for superior dry Dohrein and sarcastic abrasive Gracie. **Rescued by an aliengearholsters** Behind closed doors with these two will be very enlightening I think. **Rescued by an aliengirl book** Where do I even begin?The heroine all off page before this book begins is taken from earth and sold to snake men, **Rescued by an alienguard** The snake men bite her all over her body including her nipples and nether region: **Rescued by an aliengender** They force her to perform all kinds of acts against her will degrading her in every way imaginable, **Rescued by an alienhusband** She is a mess when the hero first finds her and she continues to be a mess for a long time after which was totally understandable given what she went through. **Rescued by an alienhumane** Most of this story is about her healing and learning to live her life after these horrific events, **Rescued by an alienboy book** That's all fine and I actually enjoyed some parts of the story, **Rescued by an alienbird** This part was foreshadowed quite a bit at the beginning and I knew it was coming but was desperately hoping I was wrong: **Rescued by an alienbees b400** I absolutely do not think that a woman should be forced to give birth and take care of her rapist's child, **Rescued by an alienhumane** I am so disgusted with this author for taking this book in that direction I could vomit, **Rescued by an aliengearholsters** The heroine is ABSOLUTELY DEVASTATED when she learns she's pregnant: **Rescued by an aliengender** She immediately realizes that it couldn't be the hero's baby and knows that it has to be the result of the snake men's rape. **Rescued by an alienbees** She rightfully freaks the fuck out cries becomes a mess again etc: **Rescued by an alienboy cast** She has every right to not want to be a mother to the baby who wasn't wanted and would forever remind her of her rape and torture at the hands of monsters: **Rescued by an alienboy book** Unfortunately for her the entirety of everyone seems to think otherwise: **Rescued by an alienhumane** He really is a good hero but this takes it a step too far, **Rescued by an alienguard** He seems to downplay just how fucked up the heroine was by what happened to her with platitudes about how the baby will be half her etc, **Rescued by an alienbees b800** Like hello couldn't the author have AT LEAST made the baby not be a fucking half-snake creature? Noooooo. **Rescued by an alienbees** She is immediately freaked when she sees the baby but once again the hero forces her to get over her VERY UNDERSTANDABLE reaction and nurse the baby, **Rescued by an alienhumane** The baby that has FANGS AND A FORKED TONGUE LIKE HER RAPISTS: **Rescued by an alienby** Ofc the heroine ends up loving the baby the rest of her reactions

are basically brushed under the rug and they end up such a fucking happy family that it's disgusting:

**Rescued by an aliengender** I am extremely disgusted with Amanda Milo for the direction that this story took:

**Rescued by an alienbeard** Safety info: heroine was with OM (her first love) while on earth who died before she was abducted,

**Rescued by an alienguard** Hero always had dreams about the heroine and knew about OM as well,

**Rescued by an alienhub games** Hero stayed a virgin because he knew that the heroine was out there somewhere:

**Rescued by an aliengear** Heroine was brutally raped prior to the start of this story and ends up pregnant with rapists' baby.

**Rescued by an alienby** I loved this book and was blown away by the great story this author told:

**Rescued by an alienbeard** The H is a j/p alien with horns scales claws and a tail,

**Rescued by an alienbird** He loves her with everything he is and he treated her exceptionally well:

**Rescued by an alienhusband** Though he never met her he's been faithful to her and never been with another woman.

**Rescued by an alienhumane** She is quite simply it for him! I loved it! However this isn't a safe book:

**Rescued by an alienhusband** The h was brutally raped multiple times by other aliens,

**Rescued by an aliengear** This book begins with her rescue and follows the journey of her emotional trauma as she heals and begins to love the H,

**Rescued by an alienbird** At times it was very touching especially as she ended up pregnant from the rape and had to deal with the trauma of carrying a child conceived in rape,

**Rescued by an alienbees b800** Kindle Edition My alien and his lady should have engaged an editor for the telling of their story.

**Rescued by an alienboy book** The third is not out yet and I probably will not read it when it does come out:

**Rescued by an alienbeard** Synopsis Callie was previously captured by icky snakey aliens who wanted nothing more than to violate her in every conceivable manner,

**Rescued by an aliengear** She won't talk won't let anyone touch her and is covered in snake bites and not the lager/cider kind of snake bit,

**Rescued by an alienhumane** Although what the hell would make anyone ever want to drink beer mixed with cider is beyond me.

**Rescued by an aliengtr** Woman won't talk to alien alien has already impressed on woman due to some espn like connection alien convinces woman to talk woman and alien dance and there's other stuff:

**Rescued by an alienhood** And when I say other stuff I mean A LOT of other stuff.

**Rescued by an alienbeard** As in here's where the editor should have stepped in and been like ok we have a good premise here so let's work THAT and flesh it out,

**Rescued by an alienboy cast** What she went through? She deserved every single bit of the space she was looking for:

**Rescued by an aliengy** Why it did or didn't work for me: At the end I felt like the book wandered all over the place.

**Rescued by an alienbird** And by wandered I mean meandered which I guess means the same thing as wandered which means I am wandering and being redundant:

**Rescued by an aliengender** Signed Meh Kindle Edition We know from Stolen by an Alien Callie has been brutalized by another alien species.

**Rescued by an alienbees** She was truly a strong heroine to come out of all of that and become an amazing mate to Zadeon.

**Rescued by an alienbird** I really appreciate the author hinted at or minimized the descriptions of her captivity,

**Rescued by an alienbees** And let me tell you this author knows how to write a perfect swoon-worthy hero.

**Rescued by an alienbike** I hurt for him too seeing his mate in the condition she is and not being able to do anything about it:

**Rescued by an alienhood** He was there for her and became the rock she needed to pull herself out of her depression and move forward and realize she is NOT what happened to her:

**Rescued by an alienbeard** she is so much more than that and it is only one part of her life:

**Rescued by an alienhood** You expect me to abandon you? Wouldn't blame me for abandoning you? Callie you don't need me.

**Rescued by an alienboy cast** But my little dream there is no scenario in which I don't choose you.

**Rescued by an aliengy** I never joined with a female though and certainly no Gryfala,

**Rescued by an alienhusband** "Why not?" "Why not any of them?" "They weren't you,

**Rescued by an aliengear** There were hints throughout the book and I kept praying that it wasn't going to be true.

**Rescued by an alienjay** did I mention he was the PERFECT hero? He was so amazing and strong and his reaction was so sweet and heartfelt.

**Rescued by an alienhead** He was there for her and helped her to pull through it and realize what it truly was.

**Rescued by an aliengy** And while this one was good it didn't work quite as well for me,

**Rescued by an alienboy cast** I felt the first 25-40% of the book was disjointed and choppy:

**Rescued by an alienhusband** I had to go back and

reread the first two chapters to make sure I wasn't missing something, **Rescued by an alienbird** After about the 40% mark it began to get better though I don't think it ever reached the writing level of book 1, **Rescued by an alienjay** That's not to say I still didn't enjoy the book because I did. **Rescued by an alienbird** I will definitely keep reading this series and I'm looking forward to the next book: **Rescued by an alienhub games** However I can say I really have no interest in Gracie unless she improves[1]

And even what the hero looks like. The camera lens needed a bit pulling back. Kindle Edition This is my second book from Amanda Milo. I haven't laughed this much reading a book recently. Callie was kidnapped and brutally raped by aliens. Some things weren't explained in detail. I rescued her body from her tormentors. But her mind... She is hurt. I am not going to walk away. I'm going to help her heal. And I will help her fight for us. But this book was not what I expected. at all. The first 40-50% was a disjointed mess. I can't imagine dropping in without reading the first book. Zadeon is absolutely perfect. He absolutely is the only reason I finished this book. Callie. she went through something too horrible to imagine. I honestly do not think I could have lived through it. The elephant in the room. I HATED. There are flashbacks but nothing real time. Kindle Edition Loved Z!!! Kindle Edition 3.5 Stars I really enjoyed this book. I read it an afternoon and was happy as can be. I like that she didn't. I like the heroine very much and the hero is great. He was very possessive sweet and understanding alien alpha. But this side was reserved only for Callie. For others he was ferocious and dangerous gladiator. I liked how tender and caring Z was to her. He was also a virgin. There are so many sweet and funny scenes in this story. Along with angst and hurt. Recommended for all who love aliens and fantasy books. Kindle Edition Mixed reaction #2. Z: Loved him. Those were a few LOL moments. Trauma depression horror shame anger fear. Lots of emotions are processed. I felt overwhelmed with Callie at times. 3.5 rounded to 4 stars. Book source: Kindle Unlimited subscription. Kindle Edition 2 stars. UGH H H H H H H H H H H H H H H H H. THIS BOOK. WARNING MAJOR SPOILERS AHEAD. She is then brutally raped repeatedly. until. We find out that she's pregnant with the rapists' baby. This is where the story took a very PRO-LIFE direction. She has every right to feel that way. While she is miserable the hero is all about the baby. He wants to keep the baby and be the father. He doesn't really give the heroine much of a choice. just saying that she will regret aborting the fetus. I was just SO DISGUSTED by all of this. It was painful to read. Then the baby is born and has many snake-like features. the heroine had to keep suffering. NOOOOOOOOOOOO. HELL TO THE NOOOOOOOOOOOO. THIS IS NOT OKAY. Literally. But I will say it again this is not ok. This story is not ok. This story is a pro-life agenda in book form. Kindle Edition DNF. Sweet baby Jesus I'm ready for therapy. Kindle Edition Wow! Seriously. He's super strong and absolutely devoted to the h. They've been dreaming of each other their whole lives. His first word was her name. The H rescues her and kills the rapists. The rapes aren't described and happened in the first book. He is sooooo patient sweet and kind to her. This H is amazing. Series: Yea. Sexy times: Yes but tame for this genre. Am I genre-typing here? Probably. Plan on reading more by the author: Well. So yea rape plays a big part in this story. Cue Zadeon the rescuer who well rescues her. Just the thought of that turns my tummy. But I'm off track. Actually there's not too much more to tell. As in too much other stuff. Not let's be all over the place. Heroine: Callie. Poor thing. Her road has not been easy. Heroes: Zadeon. He was fine. Better than fine. Patient strong good etc. Read most alien descriptions and you'll hit nail on head. Perhaps he's better than most. What he does towards the mid-end of the book? Man. Massive props. So I felt that damn book was pretty much like this. It coulda been good. I was bored at the end. Reel it in lady. As Tim Gunn says edit edit edit. So I knew it was going to be bad. My heart hurt so much for her. I cannot even imagine what she went through. It was bad enough just imagining what happened. Zadeon was amazing! He did everything right for Callie. But he truly did. You've proven you can make a life without me. I will not live my life without you. He was the perfect mate. He knew Callie was his from a very young age. He dreamed of her and no other woman would do. "I was highly sought-after after battles." She grabs my tail and stills it. "What am I?" I revel in her touch. "The other half of my soul." And oh lord. I had a feeling I knew what was going to happen. But

it was. I cannot even imagine THAT scenario. Callie's initial reaction was totally understandable. And Zadeon.a blessing.I absolutely LOVED book 1. I'm not sure what happened here. She's just not the type of heroine I like. I really hate Dohrien was paired with her.just my two cents.\*\*I would recommend reading book 1 first. This is not a standalone. Kindle Edition.
