

The Strong-Willed Child: Birth Through Adolescence By James C. Dobson **Strong willed child books** My big take away is "You can break the rebellious and counter-productive will of a child just as long as you don't break his/her spirit - the essence of who they are and how they are uniquely wired" seems reasonable enough! 240 I've never been a huge James Dobson or Focus on the Family fan (though my Dad is).
