And so much more. Six different flavored butter recipes get their own page. I guess you learn something new every day. For the recipe.

The New Camp cookbooks

3.5 stars. It features quite a few Dutch oven recipes. There are also some yummy-looking drink recipes. If that's your happy place you will love this cookbook. My thoughts are my own. Hardcover tl;dr: pretty book for people who car camp. Not even remotely for people who actually camp. This book leaves me a bit conflicted. It has some decent advice for beginners. But it's not a camping

cookbook by any means. Or bugs. This is not a book for hikers and backpackers. It's an impulse buy that will most likely be returned. Excellent pictures and clear instructions throughout. Easy to read— meaning not cheesy and kitschy. Pictures and short background or intro to every recipe. [{site_link}](#) Useful camp cooking book. Helpful in making deluxe meals outside.). Essential grilling techniques and toolbox are covered thoroughly. These are not your typical camp related recipes. Many of the recipes include tips which are especially helpful. “MidDay Meals” is exactly as it sounds lunches. “Grilled Guacamole” is the first recipe. It just gets better from there. The pizza dough itself was kind of confusing though. It would be somewhat difficult in the great outdoors. Hardcover.
