Our book today is A Lady Has The Floor: Belva Lockwood Speaks Out For Women's Rights written by Kate Hannigan and illustrated by Alison Jay a fabulous biography of one of America's first great feminists. **Childrens A Lady Has the floor decor** She decided to persue a degree in education when it was rare for women to do so and then went back to get her law degree when women were outright banned from studying law at all! During the way Belva fought prejudice harassment and mockery not only for herself but for all women and girls. **Book A Lady Has the floor installation** Along with a good overview of Belva - who she was what she believed and her many accomplishments - the story also integrates her powerful quotes in both the text and the illustrations. **A Lady Has the Floor book** This one is an absolute winner and a great choice to show little ones that they should never let the world they live in dictate the person that they have the will to become. **A Lady Has the Floor childrens books** Belva Lockwood changed education for girls became a lawyer (she had to lobby the President for her diploma) argued before the Supreme Court fought for women's rights including suffrage and ran for President of the United States! I looked at the bibliography at the end and still have never read any of those books listed and I basically majored in 19th-century women's history at the graduate level! The prose is easy to read for an independent reader or an adult reading to a child. **Childrens A Lady Has the floor installation** For example she went to law school but they would not grant her a diploma when she finished the coursework so she wrote to the president of the college who also happened to be the President of the U. **A Lady Has the floordrobe** He granted her the diploma and had it delivered! determined Belva was to succeed in a man's world - "Belva didn't stop there"; "She hung on even when the school refused. **A Lady Has the Floor booking** I'd read the book aloud to students and then after discussing read aloud the author's note and pose the question What did you add to your learning by listening to/reading this additional source? **SUGGESTIONS FOR INSTRUCTION GRADES 2-5** - engage students in an interactive read aloud OR provide a copy for a small group or pair of students to read and discuss. **A Lady Has the floorfind** The following questions might be posed for discussion: *How was Lockwood resilient? OR (higher level thinking) how does the author reveal Lockwood's resilience (capacity for springing back when stressful events occur or misfortune occurs)? *What are other words readers could use to describe Lockwood? Why do you think so? (Or teach words like determined perseverant tenacious and ask the students to choose one and explain their thinking. **PDF A Lady Has the floor lamps**) *How did Lockwood make collaboration (or partnerships) a part of her efforts to change the world? Why might this have been helpful? *When the illustrator includes words like Bold! Determined! Strong! in the illustrations how does that support the text? OR How do the Lockwood quotes from primary sources (integrated into the illustrations) support the text? Why do you think the illustrator chose those quotes for that particular illustration? I might reread specific two-page layouts - just one - and ask students to think about just this part of the book as they consider one of the questions above. **EPub A Lady Has the floor mats** Why did you choose the style of painting - oils with a crackle varnish (see Kirkus review) to illustrate this story?)
