

Uncanny X-Men, Vol. 1: X-Men Disassembled By Matthew Rosenberg **Uncanny X-Men, Vol. 1** I couldn't find much of a break down for the writers and artists.

Book Uncanny X-Men, Vol. 1997

This book really had the potential to be the big kick-in-the-butt that the X-Men has needed throughout all of its mediocre post-Secret Wars comics. **Book Uncanny X-Men, Vol. 1995** It brings back a lot of X-Men that just hadn't received enough attention in recent comics such as Psylocke and Bishop and it puts them all into a coherent group unlike the grossly scattered color-coordinated groups of recent years. **PDF Uncanny X-Men, Vol. 1996** It's muddy it never considers its themes (like the children of X-Men in conflict) and except for a few exceptions it's really bad at characterization (and even about the actual continuity of these characters). **PDF Uncanny X-Men, Vol. 1991** You can't just bring back megafauna that has been extinct for millions of years and expect the food web to remain intact! There are going to be so many new extinct species now because they were eaten by f-ing dinosaurs! He also took advice from Apocalypse. **EBook Uncanny X-Men, Vol. 1996** Now I am not familiar with all these new X-Men (from Nate to some guy named 'Forearm') so I took nothing into this other than remembering I didn't like the Chris Claremont Age of Apocalypse run from the '90s. **Uncanny X-Men, Vol. 1 epubs** X-Men from across the usual suspects unite to try and take down a combination of Legion X-Man the Age Of Apocalypse four new Horsemen a mutant cure civil disobedience and my waning interest. **Book Uncanny X-Men, Vol. 1995** This really is an example of good ideas spoiled by a being dragged out far longer than they should be and yet still feeling like not enough space was given to some of them. **Book Uncanny X-Men, Vol. 1990** I don't know if it's because there were three writers on this book (although books like 52 and Avengers: No Surrender prove that that's not an excuse) but there's definitely a lot of pacing issues here with the focus of the book shifting entirely in the later stages before whiplashing backwards again as X-Men crawl out of the woodwork. **EPub Uncanny X-Men, Vol. 1999** Once things become a bit clearer around issue 5 the series starts looking up before that shift I mentioned throws it all out of whack before we scabble around to try and finish off for issue 10. **Book Uncanny X-Men, Vol. 1998**  Comics Graphic Novels A pretty crappy start to this new series Marvel is desperately trying to fix the X-Men now that they got the movie rights back from FOX and it shows. **Book Uncanny X-Men, Vol. 1994** They wanted to go big with Disassembled but it ended up being too repetitive for a 10-issue volume with yet another prophetic villain from another dimension repeating the same thing over and over again. **Book Uncanny X-Men, Vol. 1997** In the end this was just a gimmick to get the current X-Men roster sent to another dimension namely the Age of X so Cyclops and Wolverine can come back from the dead and build things from the ground up therefore starting a new (short-lived) era for the X-Men. **Uncanny X-Men, Vol. 1gpa** A lot of the X-Men have changed since the last time I've seen them and could have used a reintroduction especially since Marvel loves to keep introducing new X-titles and making it impossible to follow what's happening to the gajillion X-Men that appear in this book. **Book Uncanny X-Men, Vol. 1996** I was resigned to thinking if I'm going to be involved in music forever I'm going to hate it for the rest of my lif Librarian note:There is than one author in the GoodReads database with this nameI haven't always been a writer. **EBook Uncanny X-Men, Vol. 1995** [{site_link}](#) The flagship X-Men title that started it all is back — bigger and better than ever! Why is the X-Men's newest crisis shaping up to be...their final adventure?! It all starts with a mysterious and tragic disappearance but their investigation draws the X-Men into a much larger — and deadlier — situation! Who or what are the Four Horsemen of Salvation and what is their connection to Nate Grey the incredibly powerful mutant known as X-Man? Will Nate's home dimension the Age of Apocalypse make its horrifying return? Or does the dawn of the Age of X-Man mean the end of the Uncanny X-Men?! It's a statusquo- smashing story that just might leave all of mutantkind in tatters and it will take three fan-favorite writers to deliver the mutant madness! COLLECTING: Uncanny X-Men (2018) 1-10 Uncanny X-Men Vol. Perhaps it was that confusion and the trope of a really big ending that won't stick long cause me to give this comic a 3 star rating:

Uncanny X-Men, Vol. 1 **gpa** I also think the fights are big and they look pretty good, **Book Uncanny X-Men, Vol. 1999** On the flipside this is just one big fight with lots of set pieces and not much character development. **Book Uncanny X-Men, Vol. 1995** Comics Graphic Novels Uncanny X-Men's return to the stand should have been a big event.

Book Uncanny X-Men, Vol. 123books

Specially when the big battles pop up. **Book Uncanny X-Men, Vol. 1999** I guess this allows Marvel to reboot the xmen series but it probably could have been achieved in half the amount of issues, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** Comics Graphic Novels Wow!!! I will even give this a Sham Wow!!! What a whopper of a finale for this 10 issue arc to re-launch an X-men run: **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** Starting off a little on the mediocre side the final 3 issues were absolutely relentless: **PDF Uncanny X-Men, Vol. 1993** Disassembled features a huge cast.

Comics Graphic Novels Uncanny X-Men, Vol. 13

And I would say the reader needs to be versed in X-Men story to gain full enjoyment: **Uncanny X-Men, Vol. 1** **gpa** Some tried and tested main plot devices were used in this volume. **Uncanny X-Men, Vol. 1** **gpa** A vaccine has been created to inoculate against the mutant gene, **Kindle Uncanny X-Men, Vol. 1991** A super Villain who while trying to exterminate the X-Men is trying to leave the world as a better place etc, **Book Uncanny X-Men, Vol. 123books** And I can't say there is much originality as far as X titles go, **Uncanny X-Men, Vol. 1 kindle paperwhite** The art was passable I have to say it must be difficult to produce a bi-monthly title where you can have up to 50 different characters in a single issue. **Book Uncanny X-Men, Vol. 1995** It also has a strong premise with X-Man trying to change the world Legion resisting him and everyone else caught in the middle, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** This is the type of big-scale story that people just haven't been willing (or able) to think about in recent years: **Uncanny X-Men, Vol. 1** **gpa** Unfortunately this encouraging story is too flawed to fulfill all those promises, **Book Uncanny X-Men, Vol. 1999** First Brisson (and company's) writing just isn't up to the task: **Comics Graphic Novels Uncanny X-Men, Vol. 1 - part** This might have been a strong six-issue source with its steps of revelation and its problems caused by both the main antagonists, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** Some of this could be resolved if future stories are better organized and some may just reflect the writers not being as good as we deserve, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** But I'm more hopeful for the X-Men than I have been in a few years despite this volume's notable flaws: **Uncanny X-Men, Vol. 1 kindle app** Comics Graphic Novels I really wanted to scream at X-man that he was screwing up the environment worse than humans were. **Comics Graphic Novels Uncanny X-Men, Vol. 1 - part** Comics Graphic Novels If truly major events and choices actually ever had a consequence in comics then I would have rated this higher, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** But I know somehow they will undo much of the events in here, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** He decides to channel his inner-Apocalypse and creates 4 Horsemen of Salvation: **Uncanny X-Men, Vol. 1** **gpa** Into this mess Nate appears and says he is going bring about world peace by killing the mutants who won't cooperate: **Comics Graphic Novels Uncanny X-Men, Vol. 1 - part** Without too many spoilers the fights are epic and the story convoluted as it turns out to be entertaining: **Book Uncanny X-Men, Vol. 1992** So while the story is exciting and it could be considered epic the problem is in comics nothing ever stays the same- not death not consequences nothing. **Book Uncanny X-Men, Vol. 1999** Thus large impact endings like this lose their impact since it can be changed: **Book Uncanny X-Men, Vol. 1992** Without being spoilery this is the end of mutantkind as we know it. **Uncanny X-Men, Vol. 1 ebook free download** Silly little tricks like that tend to make me irritated thus while the ending is impactful I doubt it will stay that

way long. **Uncanny X-Men, Vol. 1 pdffiller** A lot of action a decent story and an epic ending (though doubtfully permanent) make for a good comic. **Book Uncanny X-Men, Vol. 1999** If you are not familiar with the X-Men run recently but unfortunately this first storyline isn't exactly what the Professor ordered. **Book Uncanny X-Men, Vol. 1990** If this story hadn't come out weekly I'd probably be a lot harsher on it, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** The beginning feels very disjointed especially with lots of disparate plot threads dangling around that don't seem to have anything to do with one another, **Uncanny X-Men, Vol. 1 epubs air** I sound very negative so far and I did enjoy parts of this series. **Uncanny X-Men, Vol. 1 kindle store** The wide scope of X-Men was nice and the philosophical discussions that Kitty and Apocalypse had were great fun. **Book Uncanny X-Men, Vol. 1993** The art's solid all the way through too with Pere Perez Yildiray Cinar and RB Silva taking three issues each with Mahmud Asrar handling the opening issue, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** There's just a lot more to pick at than there is to praise at this stage, **Book Uncanny X-Men, Vol. 1998** (I am happy to report that the following arc is fantastic so far though so that's nice, **Uncanny X-Men, Vol. 1 kindle fire** A huge cast of characters to follow and a prophetic madman that wants to make the world a better place no matter the cost: **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** but I'll just chalk it up to them being excited about the return of the Uncanny title: **Book Uncanny X-Men, Vol. 1996** Ended nicely and left me intrigued with the set up for the future of the X-Men: **PDF Uncanny X-Men, Vol. 123books** I'm giving this 4-stars cuz Angel gets cool again and Storm loses her shit and gets all badass. **Uncanny X-Men, Vol. 1 book+directions** An ok read at best Rockslide/Glob/Armor's side adventure was the coolest part of the book everything else was tedious for a regular X-reader: **Uncanny x-men vol 1 marvel book** Artwise it looked sketchy at times some good panels here and there but it looks like a big collaboration and the art and writing maintains consistency throughout, **Uncanny X-Men, Vol. 1 kindle paperwhite** I would also have to praise how tightly plotted the story was considering they jammed tonnes of content into this volume. **EBook Uncanny X-Men, Vol. 1996** I borrow this from the library but I notice a price of 52\$ Cdn on this I mean WTF that would be my final gripe, **Book Uncanny X-Men, Vol. 1999** Comics Graphic Novels The X-Men spin their wheels for 10 issues for what could have happened in about 10 pages. **EPub Uncanny X-Men, Vol. 1993** Because this was a weekly comic there are multiple writers and artists involved: **EBook Uncanny X-Men, Vol. 1997** I'm hoping when this Age of X-Man story ends the writers are able to reset and pare down some of the characters in their books: **Comics Graphic Novels Uncanny X-Men, Vol. 1 - part** They really need to examine how the X-titles were handled in the 80's and follow their example. **Book Uncanny X-Men, Vol. 1995** Comics Graphic Novels

Librarian note: There is than one author in the GoodReads database with this name I haven't always been a writer, **Book Uncanny X-Men, Vol. 1999** My parents are writers and my brother is a writer and I resisted that as long as I could, **Book Uncanny X-Men, Vol. 1990** When I was 17 I hopped in a band's van and I went on tour for a summer and that was it that was what I wanted to do. **Uncanny x-men vol 1 marvel book** I ran a record label for 10 years a small indie punk label. **EBook Uncanny X-Men, Vol. 1996** I did everything in music that you can do that doesn't involve

having musical ability, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** Eventually the music business probably in a similar way to comics will just start to break your heart and I realized one day that I kind of hated music: **Uncanny X-Men, Vol. 1** **kindle cloud** My parents are writers and my brother is a writer and I resisted that as long as I could, **Uncanny X-Men, Vol. 1** When I was 17 I hopped in a band's van and I went on tour for a summer and that was it that was what I wanted to do, **Uncanny X-Men, Vol. 1 Comics Graphic novels and comics** I ran a record label for 10 years a small indie punk label. **Book Uncanny X-Men, Vol. 1998** I did everything in music that you can do that doesn't involve having musical ability: **Book Uncanny X-Men, Vol. 1996** Eventually the music business probably in a similar way to comics will just start to break your heart and I realized one day that I kind of hated music. **Book Uncanny X-Men, Vol. 1990** I was resigned to thinking if I'm going to be involved in music forever I'm going to hate it for the rest of my life: **Book Uncanny X-Men, Vol. 1996** I stopped having any sort of business with music any involvement: **Uncanny X-Men, Vol. 1** **gpa** I read comics my whole life so I just naturally fell back into another medium that is marginalized and hard to make a living in. **Comics Graphic Novels Uncanny X-Men, Vol. 1 - part** Source: {site_link} of comics WE CAN NEVER GO HOME SECRET WARS JOURNAL OUR WORK FILLS THE PEWS 12 REASONS TO DIE MENU[1]

Then this might be a wee bit confusing. Not great but not bad either. Comics Graphic Novels This was eh.okay? There's moments that worked well. Some deaths I didn't see coming. The moments with Jean and Legion was pretty cool. Just everyone arguing without much meaning and the end.is weird as shit. Least it sets it up for a better future. But this? This is a 2 or 2.5 at highest.I would only recommend Disassembled to X-Men completists. Comics Graphic Novels Pretty long winded. 10 issues where the same thing just kept repeating itself. A fantastic arc to blow open the X-Men brand. Not what I would consider a good starting point. People are all anti Mutant. It all seems very familiar. Clearly the art will suffer at some point.Second it's too long. But it really drags at ten. Never take advice from someone named Apocalypse.The events seem major. Legion David Haller is out to save the world. But from whom? Apparently X-Man (Nate Grey). So Nate has become Jesus. Apparently there is a vaccine to stop the mutant gene. Tempers are at a boiling point. Legion wants to stop him. Or is it? (It Isn't.I'm sure). As it did it manages to evade some of my ire.)Uncanny X-Men is back with a.well not a bang but it's not exactly a whimper either. Comics Graphic Novels Started off feeling pretty epic. Typical X-Men stuffs.Got a little long-winded in the middle.not sure if we needed 10 whole issues for this storyline.Really though.if I'm honest. Everything feels rushed and unfinished especially the art. The characterization of many characters is off. I just stopped. 1: X-Men Disassembled.
