Brian Shea does it again. 291 I don't know what to say. Disappointed. Let down a little. The first book was good. It was good. The second book was fabulous. It was brilliant. This book.it was a downfall from the second. But it was slow. Kinda boring. I pretty much skimmed it. Skimmed 80 percent of it and got the jist. Eh. I'll give it 3 stars. It was between good and bad.75 for two main reasons. To me that is old and tried and you lose points lol. (RIP Marley January 20 2014 - July 24 2018). Very well written and beautifully executed. Each has been an absolute pleasure to read. Awaiting number four. I voluntarily read this book and provided this review.A haunting case he could never close. I liked the characters and the secondary characters.This book started off with a bang. Hope he appears in future books. 291 Recommend this novel to crime fiction fans. Can be read as a stand-alone. Best to read prior books. I made a cast list. I will read the earlier books of this series
