These books seemed to drag in places but it was an ok read Erotic Romance Romance Fiction Way to long I really loved the story and the drama twists and turns but this book could have been a lot shorter and a lot less repetitive, Things seem to just happen out of nowhere with no lead up or introduction to the events, **Oceans Apart Series Collection epub** She just jumps from one thing to the next and doesn't introduce or elaborate on important events in the book: **Oceans Apart Series collectioncount** There seems to be no structure to the plot or the story and the characters personalities seem to fluctuate and change with each book. **Oceans Apart Series Collection pdf editor** Then suddenly we hear from Kari - one of the sub characters of the story - for a few chapters in one book and never hear from her again, **EBook Oceans Apart Series collection online** Plans don't get followed through and the whole thing is confusing and irritating to follow, **Oceans Apart Series collectionel** I found it really hard to read and I skimmed a lot of stuff just so I could finish the book, **Oceans Apart Series collectionel** There was so much potential in the beginning.

Erotic Romance Romance Fiction Part 1 Review: This story started out slow after the half way point it

Never mind that a lot of things don't make sense. I'm really disappointed with this series. I felt somethings were not addressed from part 1. I have a feeling we will meet up with Brad again.Part 3 Review: This book is steamier than the first two. There was a lot more drama than the first two. She's in L.A. Thanks to my workaholic yet overbearing father.Doing deals in L.A. is not my idea of fun. She's a paralegal. Sassy smart and curves in all the right places.I'd love to get to know her better.A lot better.But I'm heading back to the UK in two short days. Ginny I thought I had it all.Good job. Great friends and a loving boyfriend.Until I caught him with the vixen from the fifth floor.Now I am so done with men. Until my BFF drags me out to drown my sorrows. And he walks in.But what's the point? He leaves town in a couple of days.Living in different parts of the world. Battling the distance across the Atlantic.They're not going to let anything come between them. Despite everything and everyone that tries.The dad interferes in his sons life. There's a few moments that made me life. I've skimmed a lot of this book. Ginny gets pregnant with twins.after that I stopped reading. Lots of drama and suspense. Well written with great characters. Quite a steamy read that you will love. I voluntarily chose to review it. It was just OK. Long distance relationship with a rich boy who has problems. Then it goes downhill from there. I would not recommend to a friend. The characters were well developed and relatable. The storyline was fantastic. Considering the book name this is understandable. I think Amanda Heartley handled this pretty well. In my opinion there were hints of bad things to come. This does end in a cliffhanger. I did feel the tension and the build up for the end.Part 2 Review: Oceans Apart #2 starts where 1 left off. The long distance thing is grating my last nerve. The other thing is Tristan's indecision in life. I'm interested in where part 5 goes. Kari is a lush and not a good friend at all. Not really liking either Ginny or Tristan. I will finish this series because I'm this far.Part 6 Review: I'm glad this series is over. Tristan and Ginny just grated my last nerve. There were no surprise for the ending. I saw it coming from a mile away. Erotic Romance Romance Fiction.
