

The Amazing Spider-Man: Election Day By Marc Guggenheim **The amazing spider-man quotes** Marc Guggenheim This was such a great volume and deals with the crazy election day in NYC between Bill and Randall and how Spidey is fighting Menace and that leads him to being arrested because of the recent Spider-tracer killings and he goes to prison and meanwhile we learn who Menace is and that origin is shocking but the way it's done is brilliant and I love the idea of who it is and Harry's reaction to it. **The amazing spider-man comic book** Plus we follow Spidey in the prison and how he deals with the inmates and when a couple of police officers get framed by the real spider-tracer killers it's a sight to behold as Peter has to save them and also fight Menace and clear his name and these incidents will have a massive effect on the elections going forward! I loved this story and it deals with Peter trying to find out a way of being framed and then finally learn who his new nemesis Menace is and I was taken aback by who it was and the way their thought process was brilliant. **The amazing spider man comics** That was a great angle and loving what Harry's reaction was and this changes things in ASM brilliantly and it's also a meta commentary on the way elections are manipulated through sympathy and all and I love in the end how Pete meets Obama which was a fun and unexpected crossover! Apart from it I loved the writing full of meta commentary and showing the political stories in Spider-man and the art was great for the most part considering it's JRJR and well I am not the biggest fan of him but here he really shined the way he did fight and action sequences and showing so many different angles in the story. **Amazing spider man comics free pdf** Marc Guggenheim The Obama issue --which is included in this trade-- was so bad (especially the art).

It's the climax to a year's worth of Spider-Man stories as questions are answered and Spidey's new world is rocked to its core. **The amazing spider man #1 comic book value** The Spider Tracer Killer on the other hand was rather out of character (the main one that we didn't see coming cause it made no sense to that character) that was the least satisfying end to that thing. **The amazing spider-man box office** The Menace story was also very expected and the motivation was paper thin but that being said it did have some emotional resonance not to that character but the ones surrounding. **The amazing spider-man book** Overall well written and fun I am baffled that Marvel (or anyone with ANY sense) would ever choose to release it! With their amazing arsenal of artists-- they went with Zeb Wells?? Maybe every other artist was out sick that day and no one else could do those nine pages. **The amazing spider-man comic book** again on art duties Guggenheim writing some of his best dialogue and story-lines for the wall-crawler and there's even some great back-up stories including a great courtroom scene with Matt Murdock as Spidey's attorney-- drawn by one of my new favorite artists Marcos Martin! We also find out who THE MENACE is and even though it plays out pretty cool in the end-- (again Marvel why?): they have Barry Kitson (who sucks) fill in for Romita on the issue where we get the whole explanation of how THE MENACE came to be. **The amazing spider-man vol 1** Does Marvel (or the industry) hire a crappy artist who will cost them less money for books they know are going to sell no matter what? Like at the end of issue #585 where MENACE'S identity is revealed it's pretty much a given that #586 is gonna sell cause people wanna find out how and why? Same with the Obama issue. Onward to the next book! Marc Guggenheim Spidey is accused of a crime during elections in New York City and has to defend himself with the help of a certain blind attorney. **The amazing spider-man omnibus** A variation of the Green Goblin makes an appearance and as usual Spidey dwells on his guilt. **Amazing spider man comic book values** There is a side episode in which Spidey meets Obama and they basically high five each other for being awesome. **The amazing spider-man read online** Plus it's not always seeing Spidey save Vin and Carlie! Things getting exciting now: **The amazing spider-man steam key** The Obama and Lincoln special issues that get tacked on to the end are pretty painful to read. **Amazing spider man 700 pdf** Who's the person terrorizing people as Menace? Who's behind the

Spider-Tracer Killings? Who's going to be the Mayor of New York City? Marc Guggenheim and John Romita Jr, **The amazing spider-man free** Collects Amazing Spider-Man #584-588 and material from Spider-Man: Brand New Day - Extra!! #1 The Amazing Spider-Man: Election Day3: **The amazing spider-man epic collection** so there is a style to it all it's own and also the characters look very Romita: **The amazing spider-man 2** The world building here comes to a head since Brand New Day we've had the Menace and the Mayoral election and the Spider Tracer, **The amazing spider man #1 comic book value** All these pieces that this large group of writers has been building comes to a head and this is the culmination, **The amazing spider-man box office** Story: The story is okay it's tense and it does read well and is paced blazingly fast. **Amazing spider man comic book values** However I'm starting to grow tired of Peter getting shot and having to limp from action to action just to make it a fair fight for the rest of the characters, **Kindle The Amazing spider-man 2** I know rubble is iconic but there has to be a point where it's just too much and it's just a cliché: **The amazing spider-man ebay** The reveal of Menace was expected the end was nice and tense and how it played out I enjoyed: **The amazing spider-man comic pdf** Overall it was okay it was not great but it was fun to read, **Kindle The Amazing spider-man** Characters: Peter is injured and still needs to fight which happens so often it has lost all dramatic tension and is just a cliché now and expected in a finale, **Amazing spider man tv tropes** He doesn't really go through much in terms of personal growth or moving his character forward he just reacts, **The amazing spider-man hooky** The Spider Tracer Killer reveal was utterly stupid and also unearned and out of character making it a cheap end to it oh well, **The amazing spider-man xbox 360 rgh pt-br** That being said everything else in ELECTION DAY is a top notch Spidey Brand-New-Day-era read so I give it 5 stars, **The amazing spider-man xbox 360 rgh pt-br** Marc Guggenheim Nice conclusion for two main arcs Marc Guggenheim Sadly this trade has the looks of a collection about Obama and the Presidential Election, **The amazing spider-man quotes** Actually what's inside is the the culmination of months of storylines mainly the NYC Mayoral election, **The amazing spider-man box office** In this we get to see the reveal of Menace the election results the spider-tracer killer revealed and more: **Amazing spider man comic book #1** It was packed with action and JRJR was his normal awesome artistic self, **The amazing spider-man xbox 360 rgh pt-br** The other parts of the trade were just backup items for the most part with the high selling Obama issue as well, **The Amazing Spider-Man kindle books** It was goofy and pointless but it got new people reading comics so I guess that's good. **The amazing spider man #1 comic book value** Overall terrific stuff! Marc Guggenheim Ties up a years worth of three-issues-a-month stories and does a good job of it, **The amazing spider-man quotes** The whole run since the god awful 'One More Day' retcon has had a freshness to it - introducing new characters and putting new spins on characters we're familiar with, **The amazing spider-man comics free** Marc Guggenheim I think I'm starting to prefer Spidey on a team and not all on his own: **The amazing spider-man steam key** Marc Guggenheim Guggenheim's writing is alright when it's not extremely annoying he's got good character writing but the dialogue can be pretty god damn awful: **The amazing spider-man watch online** They make this book hard to throw away Romita's storytelling and art are still leagues above all the other chuds at Marvel, **Amazing spider man tv tropes** Janson's inking is still stylish as hell and a perfect fit with Romita's blocky world: **EPub The Amazing spider-man no** White is a hell of a colorist he knows when to let the line art speak for itself and when to show off his own rendering, **The amazing spider-man quotes** If it weren't for them I would be throwing this book away: **The amazing spider-man author** Oh there's also a few odd issues at the end but who the fuck cares about those[1]

But also in the end forgettable and inconsequential. Artwork was somewhat good to very good. OVERALL GRADE: B minus. Marc Guggenheim Meh. The rest of it is just ok. have all the answers.5. Pretty solid for a culmination of a couple of stories. World: The art is great it's Romita Jr. The end of course is what we expect cuase comics. You get Romita Jr. Why not Romita JR? I have a theory about this though. Just something I was thinking about. Really great stuff. Excited to see what's next. I got

this but just wasn't interested in reading it. Think I'll get my fill of Spidey from the Avengers. This would be a bad book . . . if it weren't for the dream-team of Romita/Janson/White. Marc Guggenheim
